Job Description
Missouri State Highway Patrol

Class Title: Traffic Safety Analyst II FARS

Title Code: V00089 Effective Date: 06/11/93

Date Reviewed:

Date Revised: 02/23/07

Immediate Supervisor: Traffic Safety Analyst

<u>Position Supervised</u>: None <u>FLSA Classification:</u> Non-exempt

Working Hours: An employee in this position works an eight-hour shift as directed by the division director; however, working hours are subject to change at the discretion of the commanding authority.

POSITION SUMMARY

The employee is responsible for compiling and distributing information pertaining to motor vehicle fatality crashes and serves as a Fatal Accident Reporting System (FARS) liaison to law enforcement agencies, coroners, medical examiners, emergency medical service (EMS) agencies, etc. The employee is also responsible for obtaining, analyzing, and coding very detailed information regarding Missouri fatality motor vehicle traffic crashes and reporting the coded data to the U.S. Department of Transportation, National Highway Traffic Safety Administration - FARS. The employee exercises considerable independent judgment and initiative in the performance of assigned duties; however, general supervision is provided by an immediate supervisor to ensure conformance with established rules, policies, and procedures.

DESCRIPTION OF DUTIES PERFORMED

(Any one position may not include all of the duties listed nor do the listed examples include all tasks which may be found in positions of this class.)

Analyzes, interprets and verifies fatal crash reports, reconstruction reports, and/or all other source documents to determine their entry into the FARS database; codes data using the FARS coding and validation manual to create a complete FARS case.

Enters coded data via the federal web-based micro-date entry (MDE) system for use within NHTSA; ensures correction of any inconsistencies.

Enters data from the crash report into the Microsoft Access-based tracking system; runs reports in order to identify missing elements for follow-up case summary information.

Queries the Missouri Uniform Law Enforcement System (MULES) to search in-state and out-of-state vehicle registration and driver license databases; Queries the Patrol's Traffic Arrest System/DWI Tracking System (TAS/DWITS) to obtain arrest information relating to fatal traffic crashes.

Verifies vehicle make, model, body type, VIN and airbag information provided on the accident report for accuracy via FARS software; reports errors to appropriate supervisor for correction.

Obtains lab reports, coroner/medical examiner reports, and death certificates of persons involved in fatal motor vehicle traffic crashes; verifies accuracy of information to determine if information is to be included in the FARS database.

Reviews teletypes obtained from MULES and the Patrol's web page for fatal motor vehicle crashes which

2

meet the requirements for reporting to NHTSA-FARS; enters selected data into the FARS Case Management System; compares fatality totals between FARS and the Statewide Traffic Accident Records System (STARS) daily to ensure consistency of data.

Analyzes heavy truck/bus fatal crashes to determine if they meet the criteria for studies conducted by USDOT, Federal Motor Carrier Safety Administration, and provides crash information to appropriate entity.

Reviews various reports and other data to obtain roadway information, crash location accuracy, EMS response time, EMS Agency and medical facility crash victim was transported to, cause of death, etc.; enters appropriate data from the reports into the FARS database as applicable.

Submits requests to Patrol troops and other agencies for corrected and or missing data regarding fatality crashes.

Compiles statistical information and generates reports pertaining to fatal traffic crashers upon request.

Attends and participates in various workshops and training seminars (FARS System-wide Training, Coding Committee meetings, Coroners/Medical Examiners Conference, etc.); serves on regional and national FARS panel discussions, as requested.

Performs various office duties (e.g., prepares correspondence for the director's signature, opens section mail, maintains records and files, etc.).

Operates standard office equipment (e.g., calculator, typewriter, personal computer, copy machine, facsimile machine, telephone, etc.).

Assists other state FARS units with traffic fatality data, when requested.

Serves as a lead and gives guidance to other personnel in the operation of the FARS activities.

Performs work-related travel, when required.

Performs other related duties as assigned.

KNOWLEDGE, SKILLS, AND ABILITIES REQUIRED

Working knowledge of the FARS Coding and Validation Manual.

Working knowledge of ANSI D16 Manual on Classification of Motor Vehicle Traffic Accidents.

Working knowledge of web-based programs used in the collection and quality control of FARS data.

Working knowledge of modern office practices, procedures, and equipment.
